

Interested in sketchbooking as an artform in itself? Jean Mackay's approach to sketching in nature is a great introduction into working with minimal materials; compact tools that fit into pockets yet are the high quality we are used to in the studio. Join us for a pre-recorded session with Jean through the generosity of Martha Jordan, owner of the Winslow Art Center. The supply list contains links for some of the items if you want to get a jump start on the upcoming plein air/sketching outdoor season!
