*I have always been fascinated by the many forms of artistic creation and communication: enjoying learning as much as possible from other artists, classes, and books.*

*In Alaska, I was introduced to the challenge of watercolors and then added even more challenges when sumi-e led me on a delightful path of brush manipulation of ink. I have since discovered the joy of playing with abstract shapes and designs using collage, water media and ink on both paper and canvas.*

*I am inspired by the creativity of other artists and by music, but most of all by the light-play and colors in the natural world around me. I normally paint from my imagination or from memories.*

*My work has received awards in international juried shows and I have earned signature status in the Spokane Watercolor Society.*
