

## Artist Resume Janie Edwards

I am retired and now have an art studio at home. I enjoy painting nearly every day. I choose my subjects from people I know, our backyard garden and the many wonders of nature.

Although having several art classes in high school and college, I did not take art seriously until later in life. Now I find the creative impulse unstoppable.

## Artist Statement

We all need beauty in our lives. Paying attention to the world around me alerts me to design, color, pattern and the lines of nature.

## Artist Intent

The intent of my work is to create JOY. This world is a beautiful place and I find beauty in itself an elixir to the spirit. The combo world around us speaks in megaphones about the intricacy and complex patterns we see in nature. From a small seed pod, to majestic mountains the hand who created the world wants us to wonder at its variety and design.
